

Social Networking Apps Uncovered

Application:

Synopsis:

Flickr is an application which allows people to share photos online. You can access this application from any device.

It is an online community where people can explore other people's pictures. You do not need to sign up to view the pictures, but you do if you want to upload your own or chat and comment to others about their pictures.

Flickr is part of yahoo, so you will need to either have or create a yahoo e-mail account to be able to use this application

Possible concerns:

If you do not set your account to private, anyone will be able to see the videos you upload to the site.

Installation Instructions:

1. Open up your app store on your smart phone and search 'flickr'.
2. Click on the 'get' button. This application is free.
3. Once this application is installed, 'Flickr' will ask you to sign in with your 'yahoo' account or to create an account.
4. Click on 'create an account'.
5. It will ask you for your name, an e-mail address you want to use such as jojones@yahoo.com, a password, your mobile number, your date of birth and your gender.
6. It will send you an activation number via text, you need to type the number in to active your account. Once this is done your 'flickr' account is active and ready to use.
